QUILTING UP NORTH RETREAT APRIL 5-7, 2024

With Tammy Callahan!

"I found a quilt pattern that would be fun and also help others learn to use a new tool and techniques.

The cost for the tool and pattern combined is \$35.00.

The tool is called the Cat's Cradle XL and is by Creative Grids. The pattern Big Cats, Little Cats by Cut Loose Press.

As far as the fabric I have chosen, it is by Moda and is called XOXO. I will have 11 kits available with this fabric. The cost of the fabric kit I put together is \$100 and will include fabric for the quilt top and binding.

Anybody can also bring their own fabric choices from their own stash."

Please Call Tammy at 715-774-3444 to purchase your kit or if you have other questions.

My name is Tammy Callahan, I own Quilting Up North in Port Wing, WI.

A little background on myself, I started sewing when I was 7. My mom is a wonderful teacher and she had lots of patience with me when I first started, I definitely got my love of sewing/quilting from her!

I started my working career after college by joining an insurance company in Illinois. I worked there for 23 years while I raised my children. I quilted during that time (when I was not at work or out running kids from here to there). Needless to say, I have been quilting for many years and enjoy it immensely. I love to learn/teach new techniques, new tools and share tips, tricks, and ideas with others.

The shop has been in operation for 6 years and I love every minute of it! I get the best of all worlds because I get to meet wonderful people while also making quilt samps long arming for others. Days are busy with creativity, and I am so blessed to be able to do what I dreamed of for many years.
